Investor Presentation

17th Annual 1:1 Investor Conference

June 25, 2013

Russian Government stake in Federal Grid Company transferred to Russian Grids

- On 22 November 2012 the President of the Russian Federation signed a decree “On Open Joint Stock Company Russian Grids”
- On 14 June 2013 the 79.64% Russian government’s stake in Federal Grid Company, previously held through the Federal Property Management Agency has been transferred to Russian Grids
- On 14 June 2013 Oleg Budargin, Chairman of the Management Board of Federal Grid Company has been appointed General Director of Russian Grids

Tariff Regulation and Financial Performance

- On 21 May 2012, the Federal Tariff Service approved tariffs for electricity transmission under RAB regulation for 2012-2014 (tariff was increased by 11.0% starting from 1 July 2012, by 9.4% starting from 1 July 2013, and by 9.4% from 1 July 2014)
- FY IFRS financial results for 2012: Revenues of RUB 140.3 bn; Adj. EBITDA of RUB 82.1 bn; Net Debt/adj. EBITDA 2.0x

Investment Program

- On 31 October 2012, the extended program was approved by the Ministry of Energy for 2013-2017 in the amount of RUB 776 bn
- In 2012 Federal Grid Company invested RUB 179,899 bn (including VAT)
- In 2012 new commissioned facilities: 17,827 MVA of transformer capacity, 3,643 km of transmission lines.

Debt Market Activity

- On 5 December 2012 Federal Grid Company placed debut euroclearable RUB-denominated bond issue of RUB 17.5 bn maturing in 6.25 year
- Vnesheconombank (VEB) approved of investing pension savings, managed by VEB, into infrastructure bonds of Federal Grid with a limit of RUB 100 bn and a maturity up to 35 years
- 10 June 2013 Federal Grid successfully placed first RUB 30 bn bond issue maturing in 35-year (infrastructure bonds)

Regulatory Asset Base (RAB) Regulation

- On 21 May 2012, the Russian Federal Tariff Service approved tariffs under RAB regulation for 2012 – 2014
- Federal Grid Company tariff was increased by 11.0% starting from 1 July 2012, by 9.4% starting from 1 July 2013, and by 9.4% from 1 July 2014
- Return on initial invested capital in 2014 was raised from 9.1% to 10.0% and now equals the return on new invested capital
- RAB base is accounted for once assets are commissioned and put on the Company's balance sheet

	2011 RUB Bn	2012 RUB Bn	Y-o-Y Change %
Transmission fee	134.754	136.559	1.3
Electricity sales	2.246	2.251	0.2
Other revenues	2.571	1.503	(41.5)
Total revenues	139.571	140.313	0.5

- The Group's revenues from electricity transmission services increased by RUB 1,805 million, or 1.3%, from RUB 134,754 million for the year ended 31 December 2011 to RUB 136,559 million for the year ended 31 December 2012, primarily as a result of an increase in tariffs for transmission services established by the FTS from 1 July 2012, which was partially compensated by a decrease in revenues from compensation of normative technologic electricity losses.
- The Group's revenue from electricity sales slightly increased by RUB 5 million, or 0.2%, from RUB 2,246 million for the year ended 31 December 2011 to RUB 2,251 million for the year ended 31 December 2012.
- Other revenues include revenues from connection services and grid repair and maintenance services. The Group's other revenues decreased by RUB 1,068 million, or 41.5%, from RUB 2,571 million for the year ended 31 December 2011 to RUB 1,503 million for the year ended 31 December 2012.

RUB Bn

Operating Cost Structure ⁽¹⁾

	2011 RUB Bn	% of Total Operating Costs	2012 RUB Bn	% of Total Operating Costs	Y-o-Y Change %
D&A ⁽²⁾	34.1	33.8	44.5	40.2	30.6
Personnel Related Expenses	24.0	23.9	26.3	23.8	9.4
Purchased electricity	13.8	13.7	13.3	12.0	-3.3
Materials, Repairs and Maintenance	6.0	5.9	6.2	5.6	2.8
Accrual / (reversal) of allowance for doubtful debtors	4.3	4.3	-1.4	-1.3	-132.6
Other expenses	18.6	18.4	21.8	19.7	17.2
Total operating expenses*	66.7	100.0	66.2	100.0	(0.8)

*excluding depreciation of property, plant, equipment and amortisation of intangible assets

- Excluding depreciation of property, plant and equipment and amortisation of intangible assets, operating expenses amounted to RUB 66,151 million in 2012, a decline of 0.8%, compared with Russian inflation of 6.6% for the same period.
- D&A increased by 30.6% following the implementation of investment program and commissioning of new fixed assets into operations.
- Personnel Related Expenses increased by 9.4%. The growth was primarily explained by an increase in the average number of employees by 4.4% and an increase in average salaries due to indexation of remuneration.
- Decrease in purchased electricity expenses of 3.3% was due to reduction of actual volumes of electricity losses during transmission owing to increased UNEG efficiency as well as a result of decreased wholesale electricity prices.
- Reversal of allowance for doubtful debtors was primarily related to a reversal of the previously impaired receivables from OJSC "IDGC of Siberia".

Key Highlights

- On 5 December 2012, Federal Grid Company placed its debut RUB 17.5 bn 6.25 year RUB-denominated Eurobond, the second largest deal in the Euro-Rouble space that year
- Initial price guidance was around 8.625% for a 6.25 year term, guidance was then revised to 8.50-8.625% on strong demand, and the deal eventually priced inside the revised guidance with a yield of 8.45%, securing funding significantly inside the Company's local secondary curve
- A strong mix of asset and fund managers opened the book, with significant demand from US offshore and European fund managers and banks
- The final order book was over RUB 35 bn, with significant granularity and geographic diversification from over 80 investors
- International investors accounted for almost 60% of the final book despite the absence of non-RUB Eurobonds from the issuer
- Russian investors, who are familiar with Federal Grid Company due to the established local curve, also expressed significant interest in the deal

Overview

- On 10 October 2012 the Russian Government issued a decision to invest pension savings into Federal Grid Company infrastructure projects
- The Supervisory Board of Vnesheconombank (VEB) has approved a limit of RUB 100 bn for 2013, with a maturity of up to 35 years
- On 10 June 2013 Federal Grid Company successfully placed its debut RUB 30 bn, 35-year infrastructure bond

Highlights

- Longest-maturity corporate debt in Russia
- Most effective form of debt financing by maturity and cost for Federal Grid Company
- The Company's operating costs are tied to inflation, thus acting as a natural hedge for this debt
- Long-term CPI-linked bonds offer new financing possibilities for companies with sovereign-level credit ratings that are implementing projects of significant importance to the Russian state
- Planned future issues of infrastructure bonds with shorter durations are expected to attract insurance companies and private pension funds
